

Get involved!

This section of our website is specifically for young people who are engaged with St Basils or staying at one of St Basils supported accommodation projects and we will be adding to it overtime.

There are lots of opportunities at St Basils for you to get involved in. We now have a page where we publicise [opportunities](#) from our Learning, Skills and Work team. There is also information in this section about the [Youth Advisory Board](#) (YAB) who advise St Basils Board and Senior Management Team on policy and issues that might effect St Basils young people and the National Youth Reference Group ([NYRG](#)) who advise organisations and policy makers across the UK on housing issues that effect young people.

If you want to feedback on this section of our website or suggest new pages, information or features you want to see on here, please contact the [Youth Advisory Board](#).

If you wish to make a comment or complaint about St Basils services generally, there is an [official procedure](#) to do this.
